The key aim of the Children's Centre is to ensure all infants, young children and families are supported through evidence-based practice to have the best possible start in life. This is achieved by promoting good health, safety, wellbeing and enhancing school readiness outcomes. We offer 1:1 support for families around parenting, finances, housing, behaviour management, domestic abuse, and more. The centre also promotes children and family relationships through its universal offer of family learning sessions and courses, play and stays, workshops, behaviour management and healthy relationship courses.

The team also support children who are at risk of harm and their focus is Early intervention. We work closely with the Cluster team and other agencies. The service is predominantly focussed on children aged 0-5 years.

We offer a regular universal service offering play and stay groups, parent learning courses and workshops.
