- **Breast Pumps** — Electric breast pumps are available to mothers who are experiencing issues with breastfeeding to support them to continue breastfeeding.

The key aims of the Children's Centre is to ensure all infants, young children and families are supported through evidence-based practice to have the best possible start in life. This is achieved by promoting good health, safety, wellbeing and enhancing school readiness outcomes. We offer 1:1 support for families around parenting, finances, housing, behaviour management, domestic abuse, and more.

The team also support children who are at risk of harm and their focus is Early intervention. We work closely with the cluster team and other agencies. The service is predominantly focussed on children aged 0-5 years.
